

COVID Update  
January 12, 2022

Dear Residents, Tenants, and Families,

Today we have new numbers for our recent testing. We are seeing an increase in new cases. Fortunately, the new variant is not causing as many serious symptoms generally in the population.

At The Meadows we have 3 staff members; at the Woodlands we have 8 staff members; at Knutson Place there is 1 staff member; at Luther Place there are 5 staff members, and we have 1 staff member who is shared by both campuses who has recently tested positive.

We are continuing to encourage people to limit their physical visits to people in the community until this current surge is under better control.

Thank you for your continued vigilance to ensure we have healthy residents, tenants, and staff.

Sincerely,

*Darrin Radeke*  
Interim CEO / Administrator
