

COVID Update
January 30, 2022

Dear Residents, Tenants, and Families,

Since our last update on January 27th, we have received several COVID test results back. At Knutson Place there is 1 staff member and 1 tenant, at The Woodlands there is 1 staff member, and at The Meadows there is 1 staff member who have tested positive.

As you know, older adults and those with other medical conditions are high risk for experiencing serious problems should they catch the COVID-19 virus. Please ensure that you are protecting yourself and your loved one during visits.

It has been a great pleasure working with St. John's Lutheran Community over the past month. I have appreciated friendly welcoming spirit of the people. I know that the new CEO and Administrator, Dr. Sam Onyebuchi will be feel grateful to be part of your wonderful community.

"Dr. Sam" comes with years of successful experience working as an executive in senior living. He is Senior Pastor, has a Master's degree in Gerontology, and has a strong person-centered approach to care. The Board of Directors has worked hard to find and secure a professional like him to strengthen your group. You will be good hands.

Thank you for your kindness.

Sincerely,

Darrin Radeke
Interim CEO / Administrator
