COVID Update

Dear St. John's Residents, Tenants, and Families,

We have an employee that works at both St. John's sites that tested positive for the Covid-19 virus. We need to continue with visitor restrictions at the Fountain Lake site, and begin visitor restrictions at the Luther Place site. Visitor restrictions apply to the Luther Place nursing home, Knutson Place, the Woodlands and the Meadows. Essential Caregiver visits are still allowed in all buildings. We are also allowing outdoor visits at this time.

We do not have all of the results back from the testing on Monday, October 4<sup>th</sup>. I will post another update tomorrow afternoon. At this time, we have some of the test results back, and two of the Meadows tenants tested positive for the Covid virus.

Any time we have a tenant, nursing home resident, or employee that tests positive, we need to be extra careful to prevent the further spread of the Covid virus. I know that the masks and the visitor restrictions are getting old, but we have to take these precautions to protect everyone that lives, works or visits at St. John's.

Sincerely,

Scot Spates

You'll find a *home* in our community.
