

COVID Update
November 25, 2021

Dear Residents, Tenants, and Families,

On Wednesday, November 24, we were notified that we had one employee test positive for COVID 19. The employee who works at both campuses tested outside of St. John's and notified us of the results.

The guidelines have changed related to staff or residents that test positive, and we are no longer required to restrict visits when a resident, tenant or employee tests positive for the Covid virus. Visits are allowed in all of St. John's buildings.

Visitors are still required to follow common infection control practices such as wearing a mask and sanitizing hands while visiting. Visitors are also strongly encouraged to get vaccinated against the COVID virus. Vaccination helps to protect the residents, tenants and our employees from the COVID virus.

We hope you have a safe and blessed Thanksgiving.
