

Covid Update

December 22, 2020

Dear Woodlands Residents and Families,

Last Thursday, December 17, we tested employees and residents for the COVID-19 virus. One residents that lives at the Woodlands and one staff that works at the Woodlands tested positive for the COVID-19 virus.

The COVID-19 virus is still spreading. We have been able to avoid a major spread of the virus, but even one positive case is concerning. Last week none of residents, tenants or staff tested positive for the COVID-19 virus. Unfortunately, now this week we are seeing the virus again.

Our next round of testing took place yesterday, December 21. We will also be testing staff on Wednesday of this week as well. I will send out a brief update when the results become available to us.

As Christmas approaches, please take extra care this year to protect yourself and others from the COVID-19 virus. This virus is very unpredictable and spreads easily.

God Bless!
