

January 6, 2021 COVID Update

Dear St. John's Residents, Tenants, and Families,

We are thrilled to begin the New Year with many residents and staff having received the COVID-19 Moderna vaccine. Those who received the vaccine will receive their second step January 28th and those who did not receive the vaccine will have the opportunity to receive their first dose on the 28th.

We tested staff and residents on Monday, January 4th at both St. John's locations. We had two staff members that work at Luther Place test positive for the COVID-19 virus, one staff member that works at the Woodlands test positive, and one staff member that floats between both buildings test positive for the virus. On a positive note, all residents at both locations tested negative for the COVID-19 virus.

2020 was a very challenging year for the entire country, we are hopeful that 2021 will be a year of positivity and wellness. We thank you for your continuous support and your help to beat this virus. Although the vaccine is here, we need to continue to be diligent in our infection control practices, wearing a mask, practicing good hand hygiene, and practicing social distancing.

Sending wishes for a blessed and happy new year!

Sincerely,

Kelsey Diehl, LNHA

Administrator at Luther Place
